[pepijnpersoonlijk@gmail.com](mailto:pepijnpersoonlijk@gmail.com)

<https://pepijnbullens.nl/en>

## AWARDS

- GLU Best Project 2024
- GLU Best Portfolio 2025

## SKILLS

- NextJS
- Typescript
- Tailwind
- Laravel
- PHP
- MySQL
- Python

## EDUCATION

### Grafisch Lyceum Utrecht

2023-2026

Since September 2023, I have been actively engaged in web development as part of my Creative Software Development studies. While I initially focused on PHP-based technologies such as Laravel, I am now also deepening my knowledge of JavaScript frameworks like Next.js and React. I aim to master both back-end and front-end technologies and to apply my skills broadly.

### Digibende

2020-2022

My passion for programming began in 2016, when I wrote my first lines of code at the age of eight. Years later, after a break in my school career, I looked for a place in 2020 where I could further develop this interest. At Digibende, I found the ideal environment to improve my programming skills. There, I built a solid foundation in both game and web development.
